

Program Description

Overview

Financial Qbits is a financial literacy training program that teaches financial accounting in record time. This translates to a solid and fast understanding of financial statements, which can help business success because it improves:

- Financial management skills
- Effective use of powerful tools like QuickBooks®
- Relationship with accountants
- Bankability = chances of getting business loans

Ideal for

Entrepreneurs, business owners, business executives, bankers, business consultants and educators.

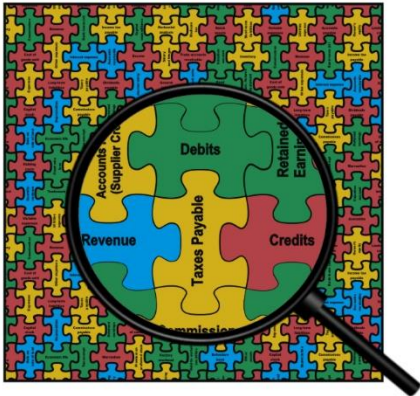

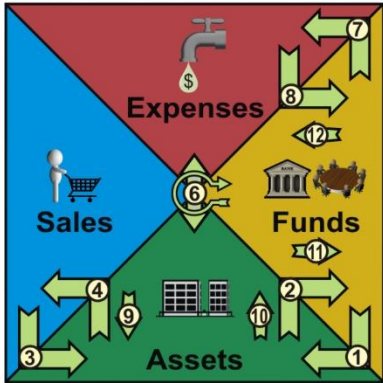

Learning objectives

- Speak the language of accountants in record time
- Demystify Debits, Credits and Chart of Accounts to effectively use systems like QuickBooks®
- Build financial statements from scratch to truly understand the numbers (case study)
- Perform basic financial analysis to evaluate the condition of a business (case study)

All in a simple, visual and gamified way!

Program contents

The program consists of: **5 animated lectures** that bring the world of financial accounting to life, **5 interactive quizzes** and **1 interactive case study** to reinforce what is learned in the lectures.
